

Epson T580 Installation Instructions

1

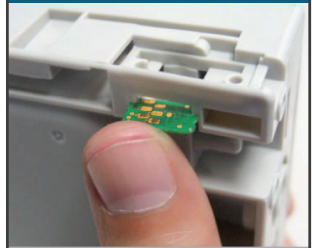

In the package you will find the ink cartridge and the added supplier chip.

2

Carefully remove the chip from the empty original ink cartridge.

3

Insert the original chip into the new compatible ink cartridge as per the diagram.

4

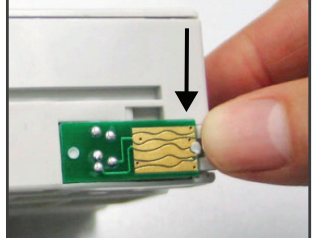

Check that the code on the ink cartridge matches the code on the added supplier chip.

5

Place the chip sleeve on the Own Brand ink cartridge.

6

Press it down. The ink cartridge is now ready for use.
