

A

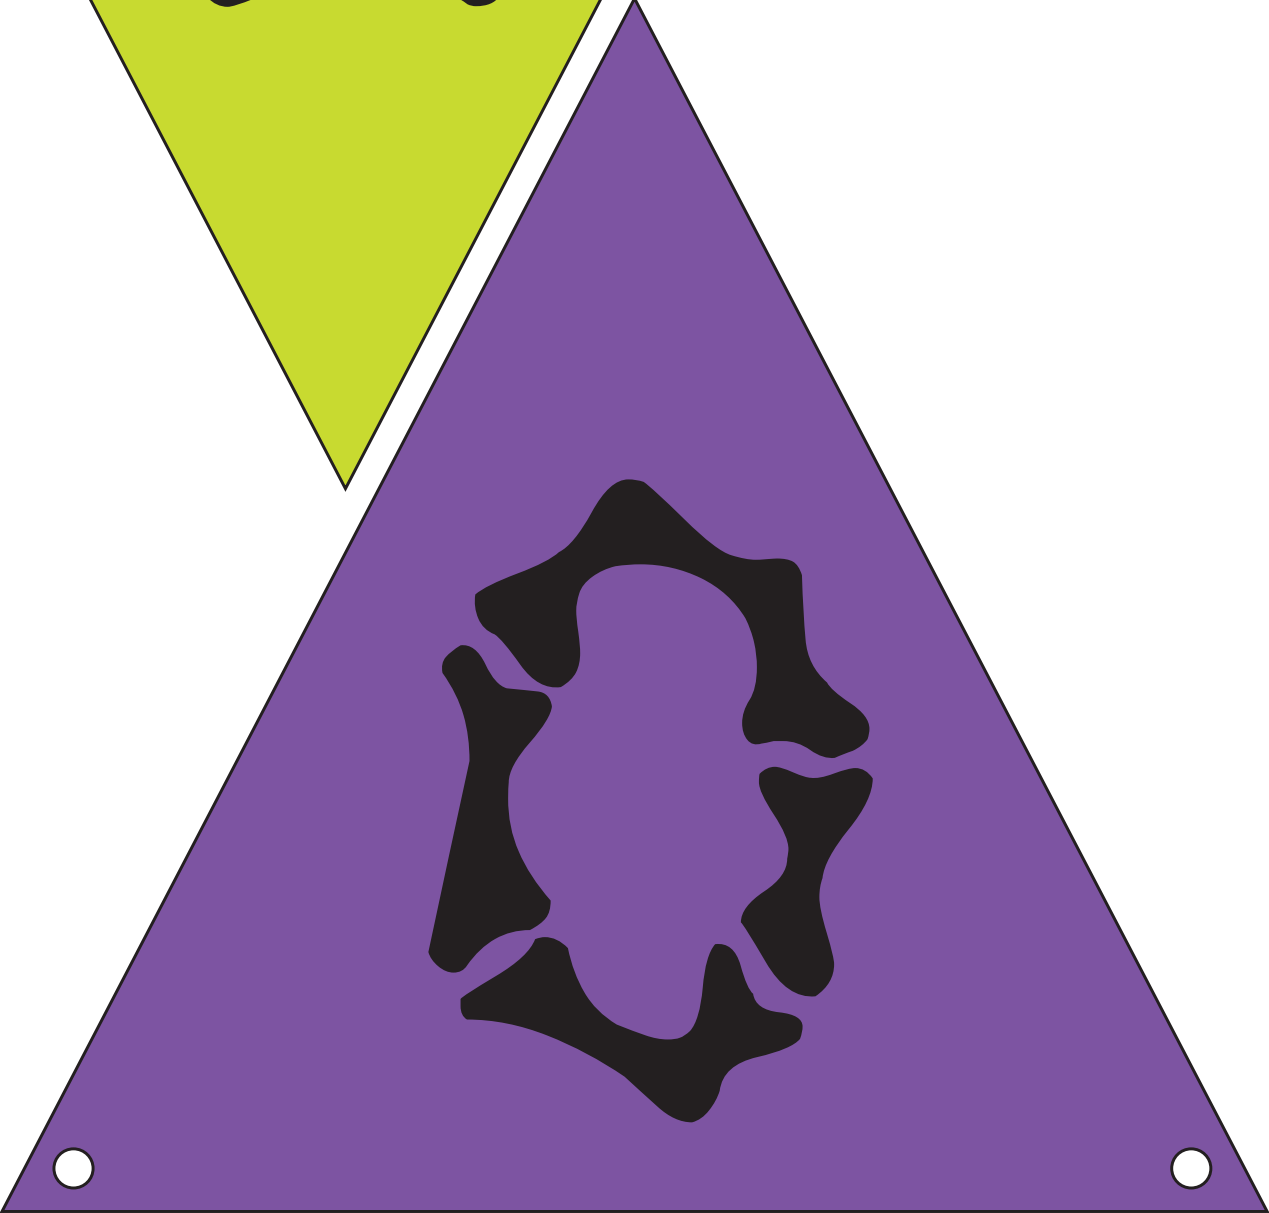

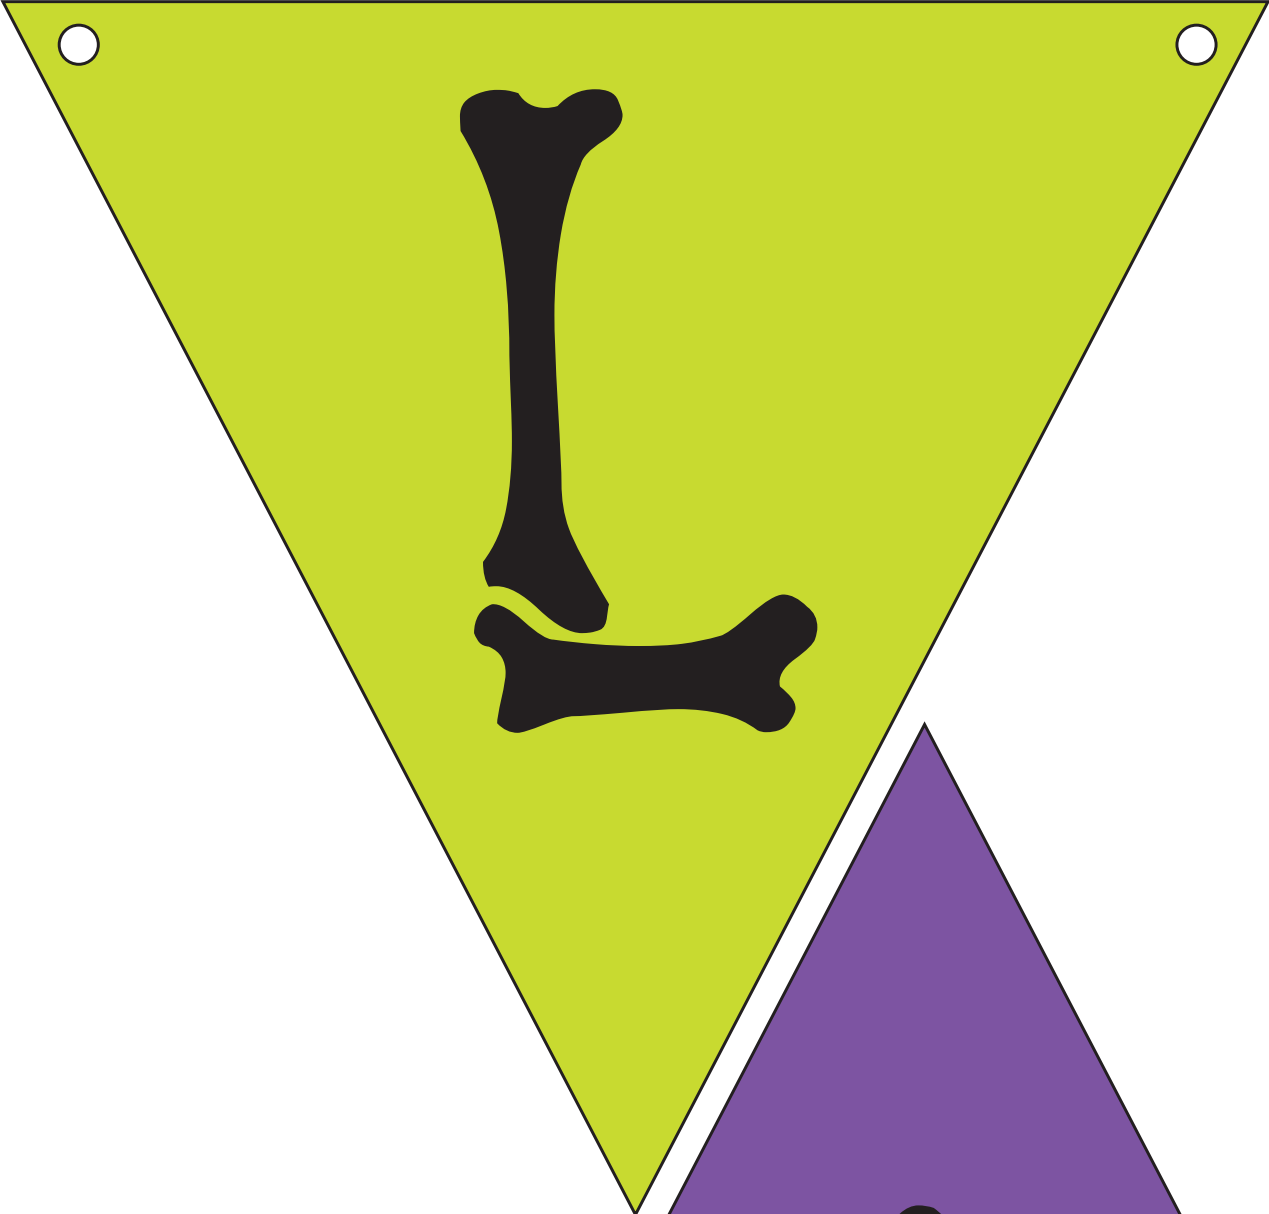

A purple inverted triangle with a black outline. It features two small white circles at the top corners. In the center, the letter 'A' is formed by two black bones: a vertical femur on the left and a vertical humerus on the right, connected at the top by a black skull. A black rib is positioned horizontally across the middle of the two bones.

I

An orange upright triangle with a black outline. It features two small white circles at the bottom corners. In the center, the letter 'I' is formed by two black bones: a horizontal humerus at the top and a vertical femur below it.
